StockMaster[™]
SAFETY AT EVERY STEP

StockMaster OmniPRO is an Auto-Safe and easy to use all terrain, mobile platform ladder.

StockMaster OmniPRO is a safe, portable and strong mobile platform ladder. Whether you need a platform ladder for indoors or out, **OmniPRO is the platform ladder you can use everywhere.**

Featuring two large wheels and a single control for braking and steering OmniPRO moves easily in the open position without lifting or dragging. Simply use the control to move it. Release the control and OmniPRO is automatically braked with no risk of moving as you begin to climb. **All instability associated with ladders that use spring castors is eliminated** and there is no movement as you work on the platform.

OmniPRO goes everywhere!

Take OmniPRO from place to place on the worksite without lifting or carrying. Indoors or outdoors, simply tow it behind you - over concrete, gravel or grass and use your free hand for your tool box or whatever you need. Fold it and transport it in your Ute or on roof racks and when you when you're not using it just hang it up or store it flat against a wall.

StockMaster OmniPRO also features a combination tool tray and an easy use safety gate at the platform entry. Simply step onto the platform and open or close the gate from in front of you (no need to turn around) and you are protected from accidentally stepping of the front of the platform.

StockMaster OmniPRO Platform Ladders . . .

- ✓ Move easily over sealed or unsealed surfaces and slopes
- ✓ Reposition quickly and require no set-up
- ✓ Are easy to transport
- ✓ Include a combination Safety Gate and Tool Tray
